Here is one of the coolest and most functional floorplans you will find and your family will love it!. As you enter you are greeted by wood look tile throughout all the living areas. An immediate left takes you to your kids bedrooms who will also have a bathroom to share between the two rooms. From there you venture on to the open kitchen with a big pantry, modern white cabinets, white subway tiles, black granite and gloss black appliances, including the refrigerator, really make this kitchen pop. The kitchen looks on to the expansive living room with a corner fireplace. The primary sits at the back of the home and has an ensuite with dual vanities, tile shower and soaker tub. The huge walk-in-closet connects to the laundry room for ease of putting away laundry, washer and dryer convey, a very cool feature. Outback you can relax under the covered back porch and watch the kids and dogs play in the flat, fenced backyard with a double gate. This home is conveniently located and ready for your family to love it.
